

RESOURCE

The Water-Energy-Food-Ecosystems (WEFE) Nexus: From Research to Practice

Description / Abstract

GIZ, in collaboration with PRIMA, held a 3-day online workshop with the aim of strengthening capacities for WEFE Nexus solutions in the Mediterranean region. This training was a call to researchers in the Mediterranean in the sectors of natural resources, such as water, energy, or agriculture. This workshop provided an opportunity to learn about the WEFE Nexus, and the value in integrating it into project designs and policymaking. The presentations to the sessions, as well as the recordings of the training are linked below.
